"Master Class: the cutting edge of gynaecology"

21-22
23-24
February
2007

Caro collega,

nel rispetto di quello che ormai si può definire "tradizione", anche questo biennio stiamo preparando il nostro congresso internazionale di chirurgia ginecologica.

Abbiamo deciso di renderlo biennale perché lo sforzo organizzativo e professionale di un evento simile è tale che un anno di intervallo è troppo poco per recuperare le energie e l'entusiasmo indispensabili per la buona riuscita della manifestazione.

L'edizione 2007 sarà una edizione "speciale" perché cade nel cinquantenario della fondazione della Casa di cura Malzoni (26 Luglio 1956).

Per illustrare mezzo secolo di attività abbiamo deciso di invitare tutte le innumerevoli personalità del mondo scientifico che in questi anni ci hanno onorati con la loro presenza ai nostri meeting e con la loro amicizia.

Sarà un modo per ripercorrere e rivisitare attraverso cinquanta anni del nostro lavoro, gli enormi progressi compiuti dalla medicina, soprattutto nella nostra specialità.

La parte del leone, come sempre, sarà affidata agli interventi in diretta che si susseguiranno in ordine logico per offrire una panoramica dello "stato dell'arte" nella nostra disciplina, presentato da operatori scelti tra i migliori del mondo. Nella speranza che vorrai unirti a noi in quei giorni, non solo per festeggiare il nostro anniversario, ma anche per celebrare la "buona" medicina, cogliamo l'occasione per salutarti cordialmente.

Mario Malzoni

Discussant

D. Salvatore

Vaginal repair of pelvic floor defects

Surgeon

M. Cervigni

Discussant

P. Achilli

Objective of the meeting

To compare classical and new surgical techniques in gynaecologic surgery.

Target

Obstetric and gynecologic surgeons will have the opportunity to be deeply involved in live sessions with Chief surgeons from several countries, in order to share their own experience and to improve their knowledge in the field.

Anaesthesiologists, nurses, obstetrics and experts in biomedical technology will also find interest in the discussed topics and are most welcome to the course.

Official language

The official language of the meeting will be Italian and English.

Exhibition

An exhibition of medical and surgical equipments, pharmaceutical products, computer systems and scientific books will also take place at the meeting site.

Sightseeing program

Naples

One of the most beautiful cities in Italy, rich in history and ancient traditions and also an important trade center.

A trip to Naples includes overlooking the Bay with the nice views of the islands of Capri and Ischia. Also very interesting is the visit to “Castel dell’Ovo”, “Vomero” and to the hills of “Posillipo”.

Pompei

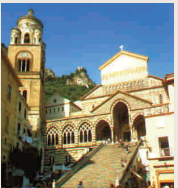

The city of Pompeii was destroyed in August 79 A.D. by the eruption of the “Vesuvius” that buried the two flourishing Roman towns of Pompeii and Herculaneum. You can now visit the remains of the early Roman Empire, temples, the Basilica, the amphitheatre and more.

Positano

Of Roman origin, this charming little town was founded by people escaping from Paestum and looking for shelter in these three little valleys. By strolling around in the narrow streets of Positano overlooking the beach, you will share the trendy atmosphere, with fashion shops, typical restaurants and wine bars.

Amalfi

Amalfi, the most beautiful town of the coast, was founded in the IV century by Romans after a wreckage; later it became an important harbour with shipyards famous all over the Mediterranean. You will admire its magnificent architecture, such as the St. Andrews church, located in the middle of the town, the church tower and many other wonderful buildings.

How to participate

Standard Registration

Euro 600,00 + VAT 20%

and it includes: Scientific material
Lunch
Participation certificate

On-line subscription: www.malzoni.com

SEGI Members Registration

Euro 500,00 + VAT 20%

and it includes: Scientific material
Lunch
Participation certificate

Social dinner

Friday 23 - 8.30 p.m.

Open to all participants, fee: € 100.00/person
Please register through enclosed form.
