

SEUD CONGRESS 2015

Endometriosis and women's reproductive life

2015 MAY 7-8-9

Location

**Paris, France
Marriott Rive Gauche**

Congress President

Pr Charles Chapron, Paris, France

ARE YOU A KINETIC DISSECTOR AND MICROLAYER VAPORIZOR?

Join a growing list of surgeons experiencing the unique functions of the PlasmaJet® Surgery System. Use **Kinetic Dissection™** to help you visualize and dissect tissue planes and **Microlayer Vaporization™** to enable you to perform more complete disease removal.

Illustrated example of PlasmaJet being used to vaporize endometrial lesions in a controlled fashion.

Welcome to Paris

Dear friends and colleagues,

On behalf of the scientific board and the organizing committee, I am honored to welcome you in Paris for the first congress of the "Society of Endometriosis and Uterine Disorders" (SEUD).

The aim of SEUD is to offer an international scientific platform for giving the possibility to have a comprehensive approach of women's health in the field of benign gynecological diseases related to uterine dysfunctions. The objective of the SEUD is to focus the attention on a group of benign gynecological diseases which affect women's health (endometriosis, adenomyosis, uterine fibroids, polyps, heavy menstrual bleeding, uterine malformations and others).

The congress has been designed to provide an innovative and comprehensive overview of the latest research developments in endometriosis, in uterine disorders and in women's reproductive life fields.

Many distinguished scientists from all over the world take part to this congress. I would like to sincerely thank them for their investment.

The steering Committee hopes this meeting will provide an exceptional opportunity for you to share your expertise in order to develop and facilitate ongoing collaborations and studies.

The congress will be articulated around plenary sessions, conferences, debates, KOL positions, symposia, live surgery... Moreover free communications, posters and videos assure this meeting will know a resounding success.

We hope that you will enjoy the congress and that your interaction with your colleagues from different countries will stimulate a creative exchange of ideas and will be personally rewarding. We also hope and trust that you will enjoy your visit to the very beautiful and exciting city of Paris.

Yours sincerely

Professor Charles Chapron,
1st SEUD Congress President
Paris, France

*I am honored to
welcome you all in
Paris for the first SEUD
congress.
C. Chapron*

Board

CONGRESS PRESIDENT :

Charles Chapron, France

ORGANIZING COMMITTEE

Bruno Borghese,
Vanessa Gayet
Arnaud Le Tohic,
Louis Marcellin,
Pierre Panel,
Pietro Santulli,
Dominique de Ziegler

Faculties and international committee

A

Mauricio Abrao, Brazil
Moamar Al-Jefout, Jordan

B

Frédéric Batteux, France
Jean-Louis Benifla, France
Stefano Bettocchi, Italy
Bruno Borghese, France
Antoine Bourret, France
Ivo Brosens, Belgium
Serdar E. Bulun, USA

C

Michel Canis, France
Francisco Carmona, Spain
Charles Chapron, France
Jung-Hye Choi, Korea
Pasquapina Ciarmela, Italy
Justin Clark, UK
Pierre Collinet, France
Hilary Critchley, UK

D

Philippe Descamps, France
Pierre-Hervé Dorangeon, France
Bertrand Dousset, France

E

Jean-Philippe Estrade, France

F

Jacques Faidherbe, France
Arnaud Fauconnier, France
Hervé Fernandez, France
Yoke Fai Fong, Singapore
Hervé Foulot, France

G

Juan Garcia-Velasco, Spain
Vanessa Gayet, France
François Golfier, France
Sun-Wei Guo, China

H

Tasuku Harada, Japan
Oskari Heikinheimo, Finland
Thomas d'Hooghe, Belgium

K

Joerg Keckstein, Austria

Sebastiaan Veersema, The Netherlands
Valérie Vernaeve, Spain

Z

Dominique de Ziegler, France
Errico Zupi, Italy

PROGRAM

THURSDAY 7TH OF MAY

7.45 | *Welcome desk opening*

08.30 | Scène C Room
12.00

Live surgery session from Versailles Hospital and Rouen Hospital

Chair : Bruno Borghese (France) - Co Chairs : Alexander Popov (Russia), Emmanuel Bailly (France)
Chair : Moamar Al Jefout (Jordan) - Co Chairs : Hervé Foulot (France), Emmanuel Bailly (France)

09.45 | Scène B Room
11.45

Current and future perspectives : Visanne® and new research targets in endometriosis

- Welcome and introduction, **Carlos Petta (Brazil)**
- Why approach endometriosis as an inflammatory disease? **Pietro Santulli (France)**
- Tailoring endometriosis treatment: medical and surgical options, **Renato Seracchioli (Italy)**
- Evidence-based management of endometriosis with Visanne®, **Andreas D. Ebert (Germany)**
- How can we best manage our patients for the long term? **Sony S. Singh (Canada)**
- Bayer's future medical treatment options, **Thomas M. Zollner (Germany)**
- Q&A, summary, own experience and close, **Carlos Petta (Brazil)**

12.15 | Scène B Room
13.45

New insights to Mirena® in the management of heavy menstrual bleeding

- Chair : Hervé Fernandez (France)
- The global burden of HMB, **Joaquin Calaf (Spain)**
 - How does Mirena® compare to other treatments for HMB? **Marc-Yvon Arsenaault (Canada)**
 - Mirena® in the management of HMB in special patient groups, **Oskari Heikinheimo (Finland)**

12.15 | Scène C Room
13.15

Endometriosis: taking into account the patient's perspective for better care?

- Chair : Arnaud Fauconnier (France)
- Toward early diagnosis, what would be the best strategy? **Jin Hua Leng (China)**
 - Socio-cultural differences in identifying and treating endometriosis: results of the international FEELING study, **Charles Chapron (France)**
 - LHRHa in the treatment of endometriosis: what are patients' expectancies and fears? **Alexander Popov (Russia)**

13.45 | Cocktail lunch and exhibition visit

14.30 | Scène B & C Room - Plenary session

Opening ceremony

Chair : Charles Chapron (France) - Co Chair : Felice Petraglia (Italy)

14.45 | Scène B & C Room - Plenary session

16.15 | *Endometriosis and reproductive life*

Chair : Yoke Fai Fong (Singapore) - Co Chair : Jim Tsaltas (Australia)

- Fetal roots of endometriosis, **Ivo Brosens (Belgium)**
- Is adolescence a crucial period for endometriosis patients? **Thomas d'Hooghe (Belgium)**
- Perimenopausal endometriosis, **Fernando Reis (Brazil)**
- Endometriosis and quality of life, **Pistofidis George (Greece)**
- Discussion

16.15 | Coffee break and exhibition visit

16.45 | Scène B & C Room - Plenary session

18.15 | *Abnormal uterine bleeding*

Chair : Carlos Petta (Brazil) - Co Chair : Maguette Mbaye (Senegal)

- AUB management: how do systematic reviews and meta-analysis help? **Justin Clark (UK)**
- The mechanism(s) of LNG-IUS action in the heavy menstrual bleeding treatment, **Oskari Heikinheimo (Finland)**
- Endometrial ablation: past, present and future, **Philippe Y. Laberge (Canada)**
- AUB and pelvic pain: specific management, **Errico Zupi (Italy)**
- Discussion

18.15 | Scène B & C Room - Keynote lecture

18.45 | *DNA, stems cells, steroids, endometriosis and uterine fibroids : dangerous liaisons*

Serdar E. Bulun (USA)

Chair : Felice Petraglia (Italy)

18.45 | Welcome reception : Posters presentations & cheese and wine

FRIDAY 8TH OF MAY

07.45 | Forum A-B-C Room - Satellite Session

09.00

Pelvic pain course

Chair: Errico Zupi (Italy) - Co Chair: Gérard Priou (France)

- ┆ Pathogenesis of endometriosis – related pelvic pain. **Mauricio Abrao (Brazil)**
- ┆ Endometriosis: how to evaluate the pain? **Arnaud Fauconnier (France)**
- ┆ Optimization of medical management for pain in endometriosis. **Jacques Faidherbe (France)**
- ┆ Circumstances of deep endometriosis surgery that can affect pelvic pain sub optimally. **George Pistofidis (Greece)**

09.00 | Scène B & C Room - Plenary session

10.30

Endometriosis and infertility (Ferring sponsored session)

Chair: Edgardo Somigliana (Italy)

- ┆ Clinical utility of AMH in endometriotic patients, **Isabelle Streuli (Switzerland)**
- ┆ Endometrial receptivity and ART outcomes? **Antonio Pellicer (Spain)**
- ┆ ART: is the differed embryo transfer a new strategic option? **Pietro Santulli (France)**
- ┆ What is the real place of surgery for infertile patients with endometriosis? **Jim Tsaltas (Australia)**
- ┆ Discussion

09.00 | Forum A-B-C Room - Satellite Session

10.30

Session SCGP / SEUD - En France et ailleurs - In France and elsewhere

Let's compare French and international positioning! (French and English speaking session)

Chair: Jean-Philippe Estrade (France) - Co Chair: Philippe Y. Loberge (Canada)

- ┆ Thermodestruction endométriale, **Jean-Louis Benifla (France)**
- Endometrial thermablation, **Philippe Y. Loberge (Canada)**
- ┆ Chirurgie coelioscopique: 2D, 3D ou robot? **Pierre Collinet (France)**
- Laparoscopic surgery: 2D, 3D or robotic? **Rosanne M. Kho (USA)**
- ┆ Stérilisation féminine, **Pierre Panel (France)**
- Female sterilization, **Sebastiaan Veersema (The Netherlands)**

10.30 | Coffee break and exhibition visit

11.00 | Scène B & C Room - Plenary session

12.30

Adenomyosis

Chair: Jung-Hye Choi (Korea) - Co Chair: Gamal Serour (Egypt)

- ┆ Cracking the enigma of adenomyosis, **Sun-Wei Guo (China)**
- ┆ Diffuse and focal adenomyosis: one or two distinct entities? **Charles Chapron (France)**
- ┆ How adenomyosis causes infertility? **Tasuku Harada (Japan)**
- ┆ Modern management of adenomyosis, **Alexander Popov (Russia)**
- ┆ Discussion

11.00 | Forum A-B-C Room - Satellite Session

12.30

Canadian session: Symposium on fibroids and endometriosis

Chair: Philippe Y. Loberge (Canada)

- ┆ Fibroids management: the new canadian guidelines. **Nick Leyland (Canada)**
- ┆ Endometriosis - related pain: an integrated approach. **Catherine. Allaire (Canada)**
- ┆ Laparoscopic morcellation: the new paradigm in endoscopic surgery. **John Thiel (Canada)**
- ┆ Hysteroscopy and myoma: monopolar, bipolar or mechanical aspiration? **Claude Fortin (Canada)**

12.30 | Scène B & C Room - Keynote lecture

13.00

Future drugs for endometriosis

Felice Petraglia (Italy)

Chair: Frédéric Batteux (France)

13.00 | Scène B & C Room

14.30

Medical Management of Uterine Fibroids with Ulipristal Acetate

Chair: Hervé Fernandez (France)

- ┆ Mode of action and application of SPRMs in the treatment of uterine fibroids, **Nathalie Chabbert Buffet (France)**
- ┆ Efficacy and safety of Ulipristal Acetate: clinical evidence from Pearl I, II & III trials, **Hans Tinneberg (Germany)**
- ┆ Real-world data on Ulipristal Acetate treatment: an update on the PREMYA study, **Hervé Fernandez (France)**
- ┆ Repeated intermittent use of Ulipristal Acetate: new phase III data from the Pearl IV part 1 trial, **Ernest Loumaye (Belgium)**
- ┆ Discussion

13.00 | Cocktail lunch and exhibition visit

14.30 | Scène B & C Rooms - Plenary session

14.45

SEUD General assembly

FRIDAY 8TH OF MAY

14.45 Scène B & C Room - Plenary session

16.45

KOL positions

Chair: Serdar E. Bulun (USA) - Co Chair: Pierre-Hervé Dorangeon (France)

- Is endometriosis a precancerous disease? **Jung-Hye Choi (Korea)**
- AUB: clinical problems and desire of patients: how to decide? **Pierre Panel (France)**
- Hysteroscopic sterilization: state of the art, **Sebastian Veersema (The Netherlands)**
- Endometriosis and obstetrics: growing concerns of the maternal-fœtal interface. **Louis Marcellin (France)**

14.45 Forum A-B-C Room - Satellite Sessions

16.15

Understanding Deep Endometriosis from Diagnosis to Innovative Treatment

Chair: Kevin Stepp (USA) - Co-Chairs: Mauricio Abrao (Brazil) and Francisco Carmona (Spain)

- Imaging diagnosis for endometriosis: state of the art, **Scott Young (USA)**
- Anatomical considerations for deep endometriosis, **Rosanne M. Kho (USA)**
- Endometriosis: when and how to implement treatment? **Mauricio Abrao (Brazil)**
- Innovative surgical treatment: moving towards scarless surgery, **Kevin Stepp (USA)**

Teleflex®

16.15 Forum A-B-C Room - Satellite Session

16.45

Live Scan

Anne-Elodie Millischer (France)

HITACHI
Inspire the Next

14.45 Forum G-I-H-J Rooms - Satellite Session

16.45

Free communications

Free communication 1 - Adenomyosis - Forum G Room - Chair: Isabelle Streuli (Switzerland)

- Adenomyosis ultrasound findings in patients with previously known endometriosis, **Mariona Riu (Spain)**
- Influence of adenomyosis in quality of life in deep infiltrating endometriosis patients, **Maria-Angeles Martinez-Zamora (Spain)**
- Evidence for genetic signature of adenomyosis / endometriosis: first report of adenomyosis in monozygotic twin fetuses, **Jelena Martinovic-Bouriel (France)**
- Prevalence of adenomyosis in patients with deep infiltrating endometriosis (die), **Carlotta Zorzi (Italy)**
- COX2 and IL-1beta mRNA expression in adenomyosis, **Patrizia Carrarelli (Italy)**
- Involvement of Hepatocyte Growth Factor-Induced Epithelial-Mesenchymal Transition in Human Adenomyosis, **Khaleque Khan (Japan)**
- Reproductive outcome and deliveries following cytoreductive surgery for patients with adenomyosis, **Ritsuo Honda (Japan)**
- GnRH agonists may improve IVF performance in women with adenomyosis, **Velja Mijatovic (The Netherlands)**
- Modern management of adenomyosis, **Ksenia Krasnopolskaya (Russia)**

Free communication 2 - Endometriosis Clinical - Forum H Room - Chair: Marie-Christine Lafay-Pillet (France)

- The risk of urinary retention after nerve-sparing surgery for deep infiltrating endometriosis: a systematic review and meta-analysis, **Marlon De Freitas-Fonseca (Brazil)**
- Laparoscopic neurolysis for deep endometriosis infiltrating pelvic wall and somatic nerves: a retrospective study on 216 patients, **Marcello Ceccaroni (Italy)**
- Predictive value of endometriosis fertility index (EFI) for natural pregnancy rate after laparoscopy treatment in chinese women with endometriosis-associated infertility, **Xianghui Zhang (China)**
- Real-Time virtual sonography using MRI-US fusion imaging for the evaluation of deep infiltrating endometriosis: feasibility and preliminary results, **Anne-Elodie Millischer (France)**
- Long-time effects of mindfulness-based psychological treatment on chronic pain and quality of life in endometriosis, **Karina-Ejgaard Hansen (Denmark)**
- Ureteral endometriosis associated with hydronephrosis, **Maria-Angeles Martinez-Zamora (Spain)**
- Long-term evaluation of clinical results and quality of life for deeply infiltrating pelvic endometriosis, **Michel Canis (France)**
- Prognostic factors of ovarian response and IVF outcome in patients with deep infiltrating endometriosis, **Claire Gauché-Cazalis (France)**
- The effect of the levonorgestrel intrauterine system to reduce endometrioma recurrence after laparoscopic cystectomy, **Ikuko Ota (Japan)**

Free communication 3 - Endometriosis Research - Forum I Room - Chair: Moamar Al-Jefout (Jordan)

- Circulating miRNAs - potential biomarkers for endometriosis, **Petra Pateisky (Austria)**
- Dienogest reduces the expression of midkine in the peritoneal fluid of women with endometriosis, **Konstantinos Nirgianakis (Switzerland)**
- FSLYM192050: a new modality of treatment of Endometriosis, **Ali-Farid Mohamed-Ali (Egypt)**
- Identification of susceptibility genes for peritoneal, ovarian, and deep infiltrating endometriosis using a pooled sample-based genome-wide association study, **Bruno Borghese (France)**
- Laser capture microdissection for women's healthcare - a powerful tool for a better disease understanding, **Eva Simon (Germany)**
- Peritoneal fluid modifies the miRNA expression profile in endometrial and endometriotic cells from women with endometriosis, **Josep Mari-Alexandre (Spain)**
- Search for protein markers of endometriosis by proteomic studies of peritoneal fluid, **Natalya V. Ermolova (Russia)**
- Surgery promotes the development of endometriosis, **Xishi Liu (China)**
- The clinical usefulness of endometrial biopsy to diagnose endometriosis in the work-up of women with infertility, **Moamar Al-Jefout (Jordan)**
- Transcriptional changes in the expression of chemokines related to NK and T regulatory cells in patients with deep infiltrative endometriosis, **Patrick Bellelis (Brazil)**
- A relationship between inflammatory cytokine receptors and ion channel expression in endometriotic lesions, **Brett D. McKinnon (Switzerland)**

FRIDAY 8TH OF MAY

Free communication 4 - Other uterine disorders - Forum J Room - Chair : Carlos Augusto Souza (Brazil)

- Evaluation of clinical, ultrasonographic and hysteroscopic parameters in the differentiation of endometrial polyps and cancer of endometrium, **R Dias (Brazil)**
- First results of the gynecological coelioscopy in the University Teaching Hospital of Dakar : a forward-looking series of 128 cases, **Maguette Mbaye (Senegal)**
- Single Incision laparoscopic salpingostomy in the treatment of tubal ectopic pregnancy : first clinical case series, **Ying Woo (Singapore)**
- Impact of sexually transmitted diseases in pregnancy : knowledge of pregnant women, **Camila Batista Caixeta (Brazil)**
- Laparoscopic metroplasty in bicornuate and didelphic uteri : feasibility and outcome, **Saeed Alborzi (Iran)**
- Office hysteroscopy in postmenopausal women : feasibility and correlation with transvaginal ultrasound, **Marine Sauvan (France)**
- Prevention and early diagnose - education to youth, **Ofra Balaban (Israel)**
- Risk factors associate to endometrial neoplasia in patients submitted to office hysteroscopy, **Douglas Silva (Brazil)**
- Clinical factors associated to abnormal hysteroscopic findings in infertile patients, **Carlos Augusto Souza (Brazil)**
- Ultrasound assesment of fibroids treated Ulipristal Acetate, **Maria-Jose Martinez-Serrano (Spain)**

16.45 Coffee break and exhibition visit

17.15 Scène B & C Room - Plenary Session

18.45 *Debate : Imaging for endometriosis and uterine disorders*

Chair : Mauricio Abrao (Brazil)

- In favour of transvaginal ultrasonography (TVUS), **Anne-Elodie Millischer (France)**
- In favor of magnetic resonance imaging (MRI), **Francisco Carmona (Spain)**

Debate : Surgery for deep endometriosis

Chair : Bertrand Dousset (France)

- In favor of complete and radical surgery, **Joerg Keckstein (Austria)**
- In favor of less aggressive surgery, **Horace Roman (France)**

17.15 Forum G-I-H-J Room - Satellite Session

18.45 *Russian speaking session*

Chair : Alexander Popov (Russia) - Co Chair : Vitali Bezenar (Russia)

- Impact of endometriosis on oocyte and embryo quality in ART. **Polina Lyatoshinskaya (Austria)**
- Medical treatment for myomas : state of the art in 2015. **Dace Matule (Latvia)**
- Endometriosis management : retrospective analysis of 1200 patients. **Vitali Bezenar, Maria Yarmolinskaya (Russia)**
- Adenomyosis and ART. **Ksenia Krasnopolskaya (Russia)**
- Should endometriomas really be operated ? **Revaz Botchorishvili (France)**
- Reproductive outcomes after uterine surgery. **Alexander Popov, Anton Fedorov (Russia)**
- New sparing technics for patients with deep intestinal endometriosis. **Konstantin Puchkov (Russia)**

17.15 Forum A-B-C Room - Satellite Session

18.45 *Session SCGP / SEUD - En France et ailleurs - In France and elsewhere*

Let's compare French and international positioning! (French and English speaking session)

Chair : Arnaud Le Tohic (France) - Co Chair : Valérie Vernaève (Spain)

- Les patientes sont-elles demandeuses d'une hystérectomie ? **Julien Niro (France)**
Do patients seek for hysterectomy ? **Hilary Critchley (UK)**
- Traitements des endométriomes, **François Golfier (France)**
Endometrioma : what is the best option ? **Errico Zupi (Italy)**
- Recours au don d'ovocytes, **Vanessa Gayet (France)**
Egg donation resort, **Valérie Vernaève (Spain)**

18.45 Scène B & C Room - Keynote lecture

19.15 *Abnormal Uterine Bleeding – an unmet need – current classification, causes and care*

Hilary Critchley (UK)

Chair : Hugh S. Taylor (USA)

20.30 Social Evening

SATURDAY 9TH OF MAY

08.30 Scène B & C Room - Plenary session

10.00

Uterine fibroids

Chair: Tasuku Harada (Japan) - Co Chair: Michel Canis (France)

- Understanding the uterine fibroids pathogenesis, **Pasquapina Ciarmela (Italy)**
- Molecular basis for potential therapeutic targets, **Bo R. Rueda (USA)**
- Strategy for myomas associated with infertility: surgery versus ART? **Gamal Serour (Egypt)**
- Adhesions prevention, **Jean-Luc Pouly (France)**
- Discussion

08.30 Forum G-H Rooms - Satellite Session

10.00

Free communications

Free communication 5 - Endometriosis Clinical - Forum G Room - Chair: Saeed Alborzi (Iran)

- Evaluating CA125 and VAS score modifications following GnRH Analogue to exclude superficial endometriosis as cause of chronic pelvic pain, **Roberta Venturella (Italy)**
- The use of vaginal gestrinone in Pentravan™ for the treatment of deep endometriosis-related pain, **Hugo Maia Jr. (Brazil)**
- Prognostic factors of ART outcomes in a continuous series of 359 endometriosis patients, **Chloe Maignien (France)**
- Prospective observational study on use of dienogest in women with endometriosis, **Eliana Fuggetta (Italy)**
- Evaluation of computed tomography enema and magnetic resonance imaging to diagnose multifocal and multicentric bowel lesions in patients with colorectal endometriosis, **Jeremie Belghiti (France)**
- A comparison of pelvic magnetic resonance imaging, trans-vaginal and trans-rectal sonography with laparoscopic findings in diagnosis of deep infiltrating endometriosis, **Saeed Alborzi (Iran)**
- Endometriosis: the optimal treatment of recurrent endometrioma in infertile patients. **Smita Lakhotia (Singapore)**
- The main etiology of unexplained chronic pelvic pain is chronic parametropathia. Its accurate diagnostic method and its local non-surgical treatment. **Masao Igarashi (Japan)**

Free communication 6 - Endometriosis Research - Forum H Room - Chair: Antoine Bourret (France)

- Association between the concentration of human leukocyte antigens-g (hla-g) measured in follicular fluid and embryo quality in patients with endometriosis submitted to IVF cycles, **Joao Cunha-Filho (Brazil)**
- Increased levels of circulating microparticles in deep infiltrating endometriosis, **Maria-Angeles Martinez-Zamora (Spain)**
- Inhibition of apoptosis in a mouse model of induced menstruation, **GM Armstrong (UK)**
- Intravenous laser therapy and use of recombinant Interleukin-1 and Interleukin-2 in the treatment of infertile endometriosis patients, **Olga-Nikolaevna Kharkevich (Russia)**
- Pharmacodynamic effects and safety of the novel selective progesterone receptor modulator vilaprisan in healthy women, **Beate Rohde (Germany)**
- Stress promotes the development of endometriosis in mice, **Qiqi Long (China)**
- The origin of endometriosis based on genome-wide DNA methylation analysis, **Yoshiaki Yamagata (Japan)**
- The transcriptional repressor BCL6 is a diagnostic biomarker for endometriosis and related infertility, **Bruce A. Lessey (USA)**

08.30 Forum IJ Room - Satellite Session - Chair: Sony S. Singh (Canada)

10.00

Videos session

- Bladder endometriosis for the gynecologists - surgical treatment with the «T» shaped technique, **Duarte Miguel Ribeiro (Brazil)**
- Surgical management of deep infiltrating bladder endometriosis, **Kristina Arendas (Canada)**
- Treatment of asherman's syndrome in an outpatient hysteroscopy setting, **Olga Bougie (Canada)**
- Nerve sparing, utero sacral resection and ureteral resection-anastomosis by robot- assisted laparoscopy for deep infiltrating endometriosis, **Emmanuel Bailly (France)**
- Ureteral resection for endometriosis with the AirSeal System®, **Arnaud Le Tohic (France)**
- Combined transurethral approach with Versapoint® and laparoscopic treatment in the management of bladder endometriosis: technique, **Pietro Litta (Italy)**
- Nerve-sparing laparoscopic eradication of deep endometriosis with segmental rectal and parametrial resection: the negrar method. a prospective study on 331 patients, **Marcello Ceccaroni (Italy)**

10.00 Scène B & C Room - Keynote lecture

10.30

Epigenetics and endometriosis

Daniel Vaiman (France)

Chair: Sun-Wei Guo (China)

10.30 Coffee break and exhibition visit

11.00 Scène B & C Room - Plenary session

12.30

Endometriosis: future and advances in research

Chair: Bo R. Rueda (USA) - Co Chair: Bruno Borghese (France)

- Endometriosis and stem cells, **Hugh S. Taylor (USA)**
- Pro-inflammatory signals and endometriosis pathogenesis: clinical applications, **Frédéric Batteux (France)**
- Endometriosis and pelvic pain: relationship between nerves and inflammation, **Michael Mueller (Switzerland)**
- Fertility preservation for endometriosis women, **Juan Garcia-Velasco (Spain)**
- Discussion

An exciting inaugural conference for a new scientific society!
Serdar E. Bulun

11.00 Forum G-H Rooms - Satellite Session

12.30

Free communications

Free communication 7 - Endometriosis Clinical - Forum G Room - Chair: Jo Kitawaki (Japan)

- Continues Norethisterone Acetate versus Cyclical Drospirenone 3 mg/ethinyl Estradiol 20 µg for the management of primary dysmenorrhea in young adult females, **Moamar Al-Jefout (Jordan)**
- Spontaneous hemoperitoneum in pregnancy (SHIP) and endometriosis: a review of the recent literature, **M.C.I. Lier (The Netherlands)**
- Clinical correlation with laparoscopic features of peritoneal endometriosis, **Daniel Spadoto-Dias (Brazil)**
- Pain evaluation and quality of life in endometriosis women undergoing IVF: a prospective controlled study, **Mathilde Bourdon (France)**
- Correlation between magnetic resonance with gel and laparoscopy in the localization of deep endometriosis, **Paolo Passoni (Italy)**
- Impact of ovarian endometrioma per se and surgery on ovarian reserve and pregnancy rate in IVF-ET cycles, **Jo Kitawaki (Japan)**
- Surgical diminished ovarian reserve (dor) after endometrioma cystectomy versus idiopathic dor: comparison of in vitro fertilization (IVF) outcome, **Audrey Roustan (France)**

Free communication 8 - Endometriosis Clinical - Forum H Room - Chair: Stefano Angioni (Italy)

- Long term follow up of patients undergoing surgery for rectal endometriosis: conservative surgery seems being followed by better functional outcomes, **Horace Roman (France)**
- Laparoscopic surgery for deep infiltrating endometriosis: the first Romanian experience, **Simedrea Voicu (Romania)**
- Superficial peritoneal endometriosis: clinical aspects and risk factors, **Serena Pinzauti (Italy)**
- Reproductive prognosis in women with endometriosis, **Maria-Cristina Cesana (Italy)**
- Rectovaginal endometriosis resection without stoma: selection criteria, **Jean-Philippe Estrade (France)**
- Diagnostic delay of endometriosis: lessons that can be learned from the Dutch situation, **A. H. J. Staal (The Netherlands)**
- Knowledge and treatment strategies on endometriosis in Dutch General Practitioners, **Moniek van der Zanden (The Netherlands)**

11.00 Forum IJ Room - Satellite Session - Chair: Arnaud Le Tohic (France)

12.30

Videos session

- Ovarian endometrioma - The robotic treatment using the «zones» technique, **Duarte Miguel (Brazil)**
- Hysteroscopic management of a stenotic cervix, **Michael W.H. Suen (Canada)**
- Laparoscopic hysterectomy for large uterus, **Arnaud Le Tohic (France)**
- Combined vaginal-laparoscopic-transanal approach in large deep endometriotic nodules, **Horace Roman (France)**
- The Rouen technique: combined laparoscopic and transanal disc excision of large deep endometriosis of lower and mid rectum, **Horace Roman (France)**
- Surgical tips to deal with adenomyosis, **Yoshiaki Ota (Japan)**
- Pelvic pain and vascular entrapment, **Pierre Panel (France)**

12.30 Scène B & C Room

13.30

Nordic Pharma Symposium

Adhesion prevention in endometriosis: a neglected critical challenge

Chair: Horace Roman (France)

- Adhesions risks after endometriosis surgery, **Markus Wallwiener (Germany)**
- Which place for the gels agents? **Horace Roman (France)**

12.30 Cocktail lunch

13.30

13.30 Scène B & C Room - Plenary session

15.30

KOL positions

Chair: Francisco Carmona (Spain) - Co Chair: Michael Mueller (Switzerland)

- Is recurrence inevitable for endometriosis patients? **Michel Canis (France)**
- Hysteroscopy and the uterus: still a perfect marriage? **Stefano Bettocchi (Italy)**
- Total hysterectomy: what is the better route (vaginal, robotic or laparoscopic)? **Rosanne M. Kho (USA)**
- Taming the shrew: low-risk-ART for high risk patient is possible. **Dominique de Ziegler (France)**

13.30 Forum G-I-H-J Rooms - Satellite Session

15.30

Free communications

Free communication 9 - Endometriosis Clinical - Forum G Room - Chair: Lucia Lazzeri (Italy)

- Colorectal resection versus rectal conservative surgery in the management of rectal endometriosis: preliminary results of endore randomized trial, **Horace Roman (France)**
- Results of implication of aromatase inhibitors in therapy of genital endometriosis, **Maria Yarmolinskaya (Russia)**
- An evaluation of fluorescence imaging + ICG Dye (Firefly) for use in the visual diagnosis of endometriosis: a prospective study, **Aileen Caceres (USA)**
- Long-term effect of post-operative medication to reduce endometrioma recurrence, **Yoshiaki Ota (Japan)**
- Management of deep infiltrating endometriosis by laparoscopic route with robotic assistance: 3 years experience, **Carole Abo (France)**
- IVF/ICSI outcome in endometriosis patients is good whatever endometriosis location as soon as embryo transfer is performed, **Jean-Philippe Estrade (France)**
- Deep endometriosis is associated with the highest level of perceived stress: effect of surgical treatment, **Lucia Lazzeri (Italy)**
- The ureteral involvement is frequent in case of posterior deep pelvic endometriosis. About 242 patients, **Clothilde Poupon (France)**
- Anti-Mullerian Hormone trend after laparoscopic surgery in women with ovarian endometrioma, **Federica Esposito (Italy)**
- A prospective pilot study to evaluate feasibility of group education for endometriosis patients, **Kristina Arendas (Canada)**

Free communication 10 - Endometriosis Clinical - Forum H Room - Chair : Serena Pinzauti (Italy)

- Dienogest in the treatment of endometriosis: a retrospective analysis of quality of life, **Letizia Freschi (Italy)**
- Efficacy of surgical intervention on pre-operative symptoms and quality of life in patients with endometriosis, **Zara Fonseca-Kelly (Ireland)**
- Diaphragmatic endometriosis: when should we think about? **Marta Lempicki (France)**

- Reduced levels of endometrial stem cell factor in women with endometriosis results in an accumulation of uNK progenitor cell, **Uma Thiruchelvam (Ireland)**
- Role of integrin expression in pathophysiology of endometriosis, **Alexander Popov (Russia)**
- Soluble ligands for the NKG2D receptor are released during endometriosis and correlate with disease severity, **Iñaki González-Foruria (Spain)**
- The effect of curcumin on the oocyte-granulosa cell interaction of bovine cumulus-oocyte complex in peritoneal fluid culture of infertile women with endometriosis, **Hendy Hendarto (Indonesia)**
- Understanding LGR5 as a prognostic and diagnostic marker for endometriosis, **Xavier Santamaria (Spain)**
- Upregulation of autophagy in ovarian endometriosis, **Stefano Luisi (Italy)**

Free communication 12 - Other uterine disorders - Forum J Room - Chair: Claudia Tosti (Italy)

- Safety of total laparoscopic hysterectomy in adenomyosis/leiomyoma patients with prior cesarean section, **Joohyun Choi (South Korea)**
- Comparison among the main hysterectomy routes, **Pedro Olsen (Brazil)**
- Determinants of birth interval among reproductive age group women in Ethiopia, **Tebikew Yeneabat (Ethiopia)**
- Development of a curriculum in hysteroscopy: Delphi method, **Marie-Emmanuelle Neveu (France)**
- Fertility after myomectomy in Dakar, **Mouhamadou Mansour Niang (Senegal)**
- Hypermobile Ehlers Danlos syndrome: a differential diagnosis for gynecologist, **Anne Gompel (France)**
- Increased progesterone receptor expression in uterine leiomyoma, **Claudia Tosti (Italy)**
- Laparoscopic surgery at low pressure (7 mmHg) with AirSeal® System: a comparative prospective pilot study with a standard insufflation (15 mmHg) in 60 patients, **Jérémy Sroussi (France)**
- Reducing uterine size with ulipristal acetate to avoid morseletion of uterus in laparoscopic hysterectomy, **Boris Bacic (Croatia)**
- Hysteroscopic evaluation of uterine cavity after conservative management of placenta accreta, **Irène Letendre (France)**

15.30 Scène B & C Room - Plenary session

16.00 *Closing and awards ceremony*

Chair: Charles Chapron (France) - Co Chair: Francisco Carmona (Spain)

The awards will only be given to the winners present during the ceremony

16.30 Forum G-H-I-J Room

17.45 *Patient session*

Chairs: Dr Sophie Lemonier (Médecin journaliste) - Mme Yasmine Candau (Présidente EndoFrance)

Actualités 2015 sur l'endométriose

- Comment améliorer le diagnostic? Pierre Panel (France)
- Quelle stratégie thérapeutique? Charles Chapron (France)

SOCIAL PROGRAM

Social program

Thursday 7th of may 18:45

WELCOME RECEPTION

Free access for this reception which will take place in the exhibition hall at 18h45.

Welcome reception is included in congress fee.

Friday 8th of may 20:30

SOCIAL EVENING AT MUSÉE DES ARTS FORAINS

Nestled in the heart of the Bercy district of Paris, housed in the wine market built by a student of Gustave Eiffel. Its creator, John Paul Favand, gathered over 35 years, thousands of rare objects: old fairground pieces, objects of show (theater, music hall) and curiosities. This museum is a massive live performance scene in which the public is an actor of his own dreams.

- Metro 7, 11, and 14, stop at "Châtelet"
- RER : Line B or C, stop at "Station Saint-Michel - Notre-Dame"

Paris, a fabulous heritage

RICH, VAST AND EXTRAORDINARY: PARIS'S HERITAGE IS TRULY EXCEPTIONAL, COMBINING BOTH HISTORICAL AND MODERN TREASURES.

With its incomparable heritage and profusion of sites and monuments, Paris is a dream destination for visitors in search of historic splendour. Thanks to its unique blend of iconic sights, innovative architecture and unusual places, the French capital promises a cultural journey like no other through 1,803 monuments, 173 museums and a host of other exceptional sites.

The top things to do on a first-time visit: enjoy a panoramic view of the city from a 324-metre height at the top of the Eiffel Tower, admire Victor Hugo's beloved gargoyles at Notre Dame Cathedral and stand at the top of the tallest hill in Paris at the Sacré Cœur Basilica. These are the three monuments most popular with visitors to Paris. Not far from Notre Dame Cathedral, the Sainte Chapelle with its beautiful stained glass windows is also well worth visiting.

A short distance from the Champs-Élysées, the Grand Palais, a huge stone, steel and glass structure, hosts prestigious exhibitions. Built by Napoleon, the Arc de Triomphe offers a breathtaking bird's-eye view of the city.

In the heart of Paris, the Louvre is a former royal residence which was transformed into a museum after the Revolution and has since become the world's most visited museum. The Musée d'Orsay houses the largest collection of Impressionist and post-Impressionist paintings in the world. Another must-see is the Palais Garnier with its ornately decorated

façade and its ceiling painted by Marc Chagall. Finally, a trip out to the Père Lachaise cemetery offers the opportunity to pay homage at the tombs of many famous people.

UNUSUAL MUSEUMS: PARIS'S ALTERNATIVE HERITAGE

The Louvre and the Pompidou Centre are far from being the only museums in Paris. The city has many lesser known, often private, museums that are well worth going out of your way to visit, such as the Musée de l'Erotisme in Pigalle, which displays erotic art works from around the world. Another quirky place to visit is the Musée des Egouts comprising the largest network of sewers in the world, showing what Paris looks like below ground. The other major underground attraction, the Paris Catacombs dating from Roman times, is a labyrinthine network housing the remains of more than six million Parisians transferred here from the city's cemeteries. The Catacombs draw a constant stream of visitors, though only 200 people are allowed inside at a time.

There is a completely different atmosphere at the Musée des Arts Forains, where visitors can relive the experience of a 19th-century funfair and learn how to restore an ancient merry-go-round. Another museum in a 19th-century Napoleon III townhouse, the Musée du Parfum, gives visitors an unforgettable insight into perfume and the history of traditional perfume making at the Fragonard factory.
